CALL FOR PAPERS

The field of Adipose Tissue research has grown tremendously, and **ADIPOCYTE** will be the first international peer-reviewed journal of its kind providing a multi-disciplinary forum for research focusing exclusively on all aspects of adipose tissue physiology and pathophysiology. Adipocyte will accept high-profile submissions in basic, translational and clinical research.

TOPICS INCLUDE

- Adipogenesis
- Adipose stem cells
- Adipose inflammation
- Insulin resistance and diabetes
- Metabolism and energy balance
- Adipose tissue structure and development
- Cardiovascular disease and vascular homeostasis
- Adipose apoptosis, hypoxia
- Adipokines • Mitochondrial dysfunction
- Hypertension
- Lipids, fatty acids
- Obesity and cancer
- Angiogenesis
